

CSC309, Weekly Report 3

February 26, 2015

Please visit <https://trello.com/b/cXmtQocZ/csc309> to see overall project plan/status

Summary: Major progress on the project pages - adding and editing donations is now possible. Feedback forms are now displayed to users after a project they've donated to successfully completes. Other progress areas include the user dashboard, admin view, and user profiles.

Alec Brunelle (g3brunel)

- Implemented base user_dash functionality
- Milestone model functionality

Benson Chan (g3chanbf)

- Completed skeleton of profile page with structure, formatting and basic functionality.
- Updated profile page with changes made to the project.

Chris Sandison (g3flylo)

- Completed funding model for project (new and edit screens)
- Aggregated funding functionality
- Added closer object to be run nightly - finds all projects that have reached their completion date and closes them:
 - builds feedback objects for users to donated to successful projects
- Added feedback forms for dashboard (small popup notifications that can be dismissed) as well as separate feedback screen for dismissal
- All of these have cucumber and rspec tests built

Timo Vink (c4vinkti)

- Added basic moderation support for admins
 - Added "report" button to project pages
 - Added moderation page in admin area where reports show up
 - Allow admins to edit any project
- Write RSpec and Cucumber tests for moderation feature
